OBJECTIVES

This project enables young people to actively participate in the development of the project program, focusing largely on their learning process and learning effect.

This project will focus mostly on enhancing critical thinking and problem solving skills, promoting teamwork and collaboration, encouraging creative expressions, fostering empathy and social awareness, developing communication skills, and inspiring personal growth and self-discovery.

PROGRAMME

We plan to develop the programme together on the online meetings. Regardless of the outcome of this preparation phase, our programme will have the following elements:

***Experiential exercises** to reflect on the objectives of the project. **Art** to express our emotions regarding objectives of the project. **Media production** to prepare material to be disseminated. **International afternoon** to address our multicultural group and celebrate our diversities.*

DISSEMINATION

Dissemination is an activity where all participants and organisations share information about the project to the public. You are suggested to share your photos and thoughts on social media, to share description of the project with the local newspaper or to write a bulletin. You can also make a video, use some of the activities from the youth exchange and make your own workshop in your school or youth center/club. Be creative in informing other people and organisations about your experience and share your dissemination efforts with us.
